Parents

Activating the parent account

Create your password with the school's invitation letter.

Steps

1. Open the address written on the invitation letter.
2. Enter your phone number and the code on the letter.
3. Choose your password.
4. You now see your children.

> **Good to know.** If you have children in several schools, add them with **Add a school**.

Forgotten password

Get back into the parent space.

Steps

1. On the sign-in page, click **Forgot password**.
2. Enter your phone number.
3. Follow the instructions you receive to choose a new password.

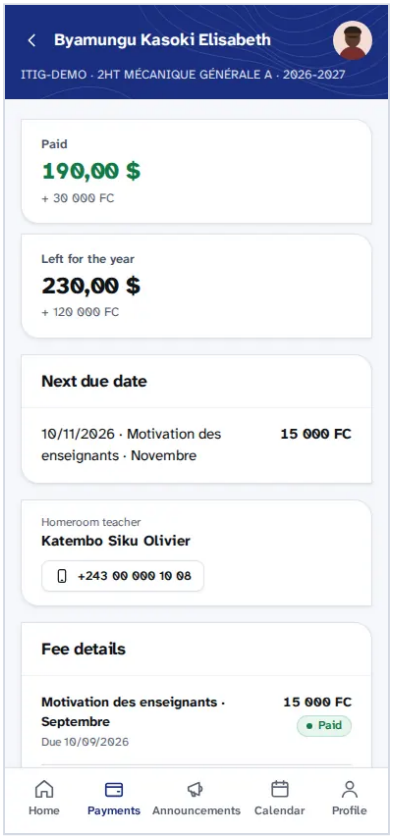

> **Good to know.** If nothing arrives, the school's secretariat can give you a new access letter.

Following my child's payments

See what is paid, what remains and download receipts.

Steps

1. On the home page, tap your child's name.
2. Open the payments tab: paid instalments, upcoming ones, balance.
3. Tap a payment to see its receipt.

A child's payments on the phone.

> **Good to know.** To pay, go to the school's cash desk: the parent space does not receive money.

Reading my child's report card

Read and download the report card once the school has published it.

Steps

1. Tap your child's name, then **Report cards**.
2. Choose the term.
3. Read the report card or download it as a PDF.

> **Good to know.** The report card shows up only once the school publishes it; it may be withheld if fees are late.

Installing the app on the phone

Add the parent space to the home screen to open it like an app.

Steps

1. Open the parent space in the phone's browser.
2. Open the **Install** page from the menu and follow your phone's prompt.
3. An icon appears on the home screen.

> **Good to know.** The app opens faster and notifies you of the school's announcements.
